# ПОДГОТОВКА

## Using the Product for the First Time

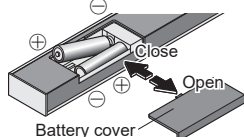

### 1. Insert the battery

#### 1.1 Remove the remote control from the hanger.

#### 1.2 Open the battery cover and insert two AA batteries. Insert batteries and close the battery cover.

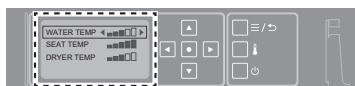

##### Remote control backside

- ▶ When batteries are properly inserted, temperature levels appear on the display of the remote control (back side).

**When the temperature levels are not displayed.**  
Perform step 3 of "Language Settings".  
(→Page 40)

The display goes out when no button on the remote control is pressed for about 60 seconds or more.

#### 1.3 Mount the remote control in the hanger.

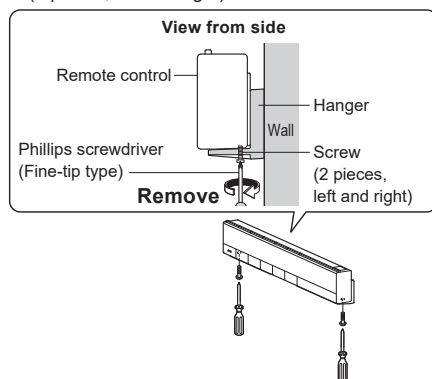

##### About the batteries

**Use dry cell, alkaline batteries.**

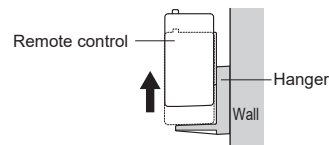

Be sure to follow "Safety Precautions" to prevent the batteries from rupturing or leaking fluid. (→Pages 4, 7)

#### If the remote control is secured to prevent theft

- 1) Remove the screw from the remote control fixture.  
(2 pieces, left and right)

- 2) Remove the remote control from the hanger.

##### To secure the remote control again

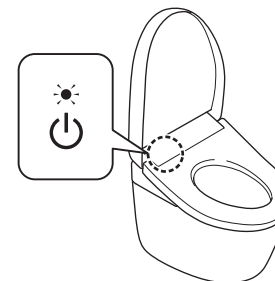

**Tighten two screws on the left and right to secure it.**  
Overtightening may cause damage to parts such as the hanger.

### 2. Turn on the power

#### 2.1 Insert the power plug.

- ▶ The wand extends and then retracts.

#### 2.2 Check the "Power" LED illuminates.

#### If the light is off

Switch "Power" to "ON" using the remote control.

##### To operate from the back of remote control

- 1) Press "Power ON/OFF" button about 3 seconds or longer.

##### To operate from the front of remote control

Recommended if the remote control is secured to prevent theft, etc.

- 1) and Press the "Stop" button and "Water pressure adjustment +" button at the same time for about 10 seconds or longer.

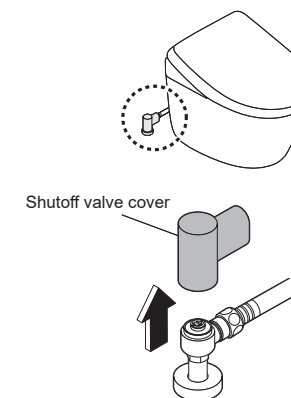

##### To turn the power "OFF"

Unplug the power plug.

- ▶ The "Power" LED is unilluminated.

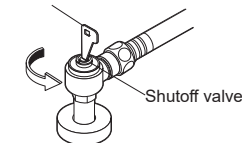

### 3. Open the shutoff valve

#### 3.1 Remove the shutoff valve cover.

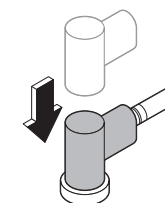

#### 3.2 Fully open the shutoff valve.

Opening / closing tool (accessory)\*1  
or flat-head screwdriver

#### 3.3 Install the shutoff valve cover.

\*1 Use the supplied opening/closing tool.

## Mechanism of Auto Functions

"EWATER+" is used automatically to clean the wand and bowl unit.

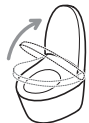

### 1. As you approach

Auto open / close  
Auto bowl CLEAN  
Instant heated seat

Auto open / close

The toilet lid opens

When the toilet is used in standing position

Open the toilet seat with the remote control.

Auto bowl CLEAN

Pre-mist

The Bowl light lights up

A mist is automatically sprayed inside the bowl unit to make it more difficult for dirt to adhere.

Instant heated seat

Warming starts from the standby temperature.

### 2. As you sit\*1

Deodorizer  
Instant heated seat

Deodorizer

Starts the deodorizer

Removing odors inside the bowl unit.

**Note:** Deodorizing filter needs regular maintenance. (→Page 53)

Instant heated seat

Warms to the set temperature

### 3. As you stand up

Auto power deodorizer  
Auto flushing  
Auto wand CLEAN

Auto power deodorizer

After about 10 seconds

Starts the auto power deodorizer

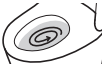

It stops about 60 seconds after you stand up from the toilet seat

Auto flushing

After about 10 seconds

The toilet flushes\*2

**Note:** The flushing varies depending on how long you sit on the toilet seat.

- Performs a light flush if the time is about 6 to 30 seconds.
- Performs a full flush if the time is about 30 seconds or longer.

Auto wand CLEAN

Only when the washing functions are used

After about 25 seconds

The wand extends to clean with the "EWATER+" that comes out of the base\*3

The Bowl light lights up

**Note:** "EWATER+" can also be used by pressing the remote control button. (→Page 20 "Wand CLEAN")

### 4. As you move away

When you move away

Auto flushing  
Auto open / close  
Auto bowl CLEAN  
Auto underseat CLEAN  
Instant heated seat

When the toilet is used in standing position

Auto flushing

The toilet flushes\*2

Performs a light flush.

Auto open / close

The toilet lid and toilet seat close\*2

Auto bowl CLEAN  
Auto underseat CLEAN

When you move away

After-mist\*4

The Bowl light lights up

EWATER+ mist is sprayed on the bowl unit and underneath the front of the toilet seat.\*5

**Note:** "EWATER+" can also be used by pressing the remote control button. (→Page 49 "Manual Spray")

Auto open / close\*6

The toilet lid closes\*2

Instant heated seat

Returns to the standby temperature

Operation under the default settings is described in "Mechanism of Auto Functions".

These mechanisms be changed. (→Pages 26–45 "Changing Settings")

What is meant by "EWATER+" ?

"EWATER+" helps the self-cleaning wand feature work effectively and by preventing the accumulation of dirt that can cause stains.

- "EWATER+" is generated from chemicals already present in potable water.
- "EWATER+" helps to minimize dirty surfaces, but does not make cleaning unnecessary.
- The effect of rinsing with "EWATER+" can vary depending on the frequency of toilet use and other conditions.

\*1 Water comes out from the area around the wand for several seconds while water is warmed up.

\*2 You can change to the setting that closes the toilet lid before flushing the bowl unit. (→Pages 30, 31)

\*3 When the washing functions (Rear washing and Front washing etc.) have not been used in 8 hours, the wand is cleaned automatically. (Water comes out from around the wand.)

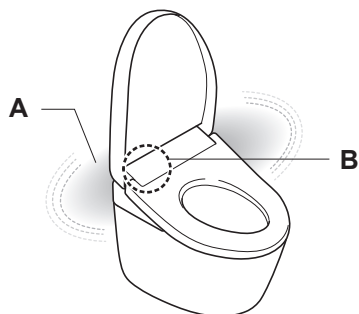

\*4 Mist is sprayed on the bowl unit and underneath the front of the toilet seat that gets dirty easily. If the toilet lid is closed, it is opened to spray mist. (If you do not want to open the toilet lid when spraying mist) (→Page 68)

\*5 When the washing feature (Rear washing and Front washing etc.) is not used for about 8 hours, mist is sprayed on the bowl unit automatically.

\*6 When you do not sit on the toilet seat, or when you sit on it or stand in front of the bowl unit briefly, it takes about 5 minutes before the lid closes automatically.

# Основные операции

## Mechanism of Auto Functions

### A Soft light

Lighting up the inside of the bathroom with a soft light.

It lights up as you approach the bowl unit and goes off after you move away from the unit and a certain time has passed.

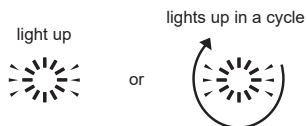

**Note:** You can turn "Soft light" ON or OFF. (→Page 39)

#### Night light

You can change "Soft light" and "Bowl light" to "Night mode", a lighting mode suitable for night. (→Page 38)

### B CLEAN indicator

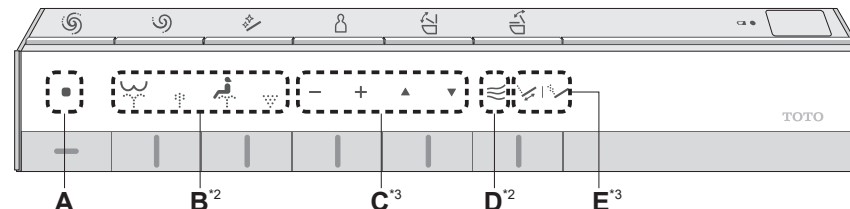

Lights to show that the "Auto bowl CLEAN", "Auto underseat CLEAN", "Deodorizer", "Auto wand CLEAN", and "Manual spray" functions are operating.

Lights only when the toilet seat is not in-use\*1

**Note:** You can turn "CLEAN indicator" ON or OFF. (→Page 40)

## Using the Remote Control

Operate the controls on the remote control; a beep sounds when the top unit receives the signal.

- A**  **Stop**  
Stops the B or D operation.
- B**  **Rear washing**  
Washes your rear.  
 **Rear soft washing**  
Washes your rear with soft embracing water flow.
-  **Front washing**  
Serves as a bidet for ladies.  
 **Wide front washing**  
Gently washes a wide area.
- C**  **Water pressure adjustment**  
You can adjust the water pressure to one of five levels.  
[-] Softer, [+] Stronger
-  **Wand position adjustment**  
You can adjust the washing position to 5 different points between the front and the rear, using the [▲] and [▼] buttons.

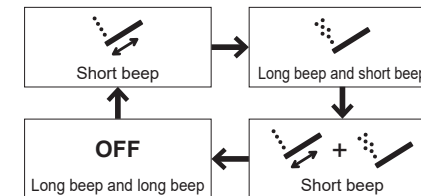

Once use of the remote control is finished, the settings will return to the initial setting (3rd position) after a while, not exceeding a maximum of 5 minutes.

If you do not want to return to 3rd position (→Page 43)

**Note:** Sitting back on the toilet seat makes it easier to adjust the wand position and to reduce splashing.

- D**  **Warm air drying**  
Dries your rear.
- E**  **Oscillating washing**  
The wand moves back and forth to washes your rear thoroughly.  
 **Pulsating washing**  
Washes with the water pressure pulsating between soft and strong.

The washing mode changes each time you press the button.

**Note:** Sitting back on the toilet seat makes it easier to adjust the wand position and to reduce splashing.

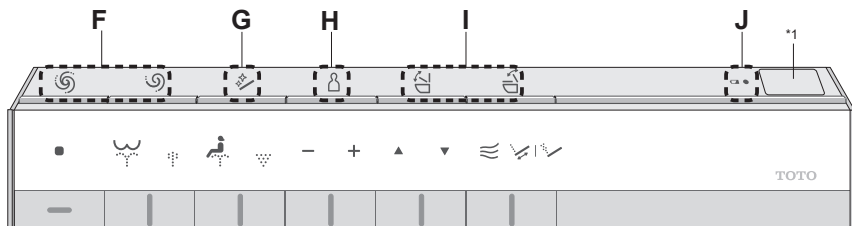

\*1 Except "Manual spray"

\*2 This cannot be used if the seat sensor is not working. Sit down so that the seat sensor touches your skin directly. (→Page 9)

\*3 While using B, these buttons and their functions can be operated.
